Certified Structural Engineer - Structural Engineering Certification Board

PROFESSIONAL EXPERIENCE

From 1973 to 1989, Larry was a structural engineer with a large architectural/engineering firm, becoming manager of the structural/support services division. Since joining JDH as a principal in 1989, he has had charge of the design of building structures for numerous educational, commercial, industrial, and religious facilities, and the design of specialty structures. Of particular interest is the rehabilitation of existing structures or their conversion to new uses, preserving their place in society

PROFESSIONAL AFFILIATIONS

American Concrete Institute ACI
American Institute of Steel Construction AISC
National Council of Examiners for Engineering and Surveying NCEES
National Society of Professional Engineers NSPE
Structural Engineer's Association of Michigan SEAMi

RESPONSIBILITIES

In addition to general management and shared oversight of the business of JDH Engineering, Larry maintains client relationships, coordinates business development, and serves as principal in charge of engineering projects. He is actively involved in design concepts as well as final engineering and retains special interest in engineering adaptations of existing structures.
